a sanctuary of hope

The Spirituality of Nature

OCTOBER 4 - 7:30pm

No figure in history embodied a love for God and a love for nature more than St Francis of Assisi (1181-1226).

On the 897th anniversary of his death, we will look at ways that nature can both enrich our souls and perhaps save our world.

The Rev. Bill Borrer, who is also a Religious Historian, will be presenting.

This event will be held at the Church, also live streamed by GNAT, and is open to the public.

First Congregational Church of Manchester VT
